

AN ALP IS NOT A PETTING ZOO

Always keep your dog on a leash.
If an attack by animals is foreseeable,
release it immediately.

Don't scare the animals!
And don't hit them with the stick.

Observe possible threatening animal gestures:
Head down, scratches, roar, puff.
Do not look them directly in the eyes!

Leave the animals alone!
Don't pet the calves!

Walk quietly and discreetly
at a distance beyond the animals!

Always stay on the hiking trail.
